

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THELMA WASTE CONTROL, INC.

ALLEGED VIOLATION OF KRS CHAPTER 278

)
) CASE NO.
) 91-057
)
)

O R D E R

On July 5, 1991, the Commission issued an Order in this proceeding which found that, inasmuch as Thelma Waste Control, Inc. ("TWC") was in the process of correcting the deficiencies at issue in this show cause proceeding by the imminent installation of two new treatment plants, the proceeding should be held in abeyance for a period of 30 days. In its Order, the Commission directed TWC to file a report within 30 days of the date of the Order, providing the status of permit applications for construction and installation of the two new plants.

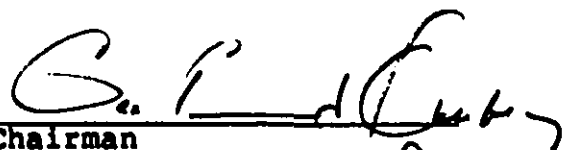

On August 21, 1991, TWC filed the requested status report. TWC stated that the plants are currently being manufactured and should be delivered within the next two to four weeks. According to TWC, it has obtained the required construction permits for both plants from the Division of Water of the Natural Resources and Environmental Protection Cabinet. TWC further informed the Commission that the Big Sandy Area Development District is assisting TWC in completing an application to be filed with the Commission.

From the foregoing, the Commission finds that this proceeding should continue to be held in abeyance in order to allow TWC time to file all necessary applications with the Public Service Commission.

IT IS THEREFORE ORDERED that this proceeding is hereby held in abeyance until further order of the Commission. If TWC has not filed all necessary applications with the Commission within 30 days of the date of this Order, TWC shall file a report with the Commission at the expiration of that time period, providing the status of the applications.

Done at Frankfort, Kentucky, this 20th day of September, 1991.
